

◀ SLEEP ON IT

Furniture maker d-Bodhi has an exclusive new range of organic bed linen for those who like their sheets raw (100 percent linen), natural (100 percent organic cotton dobby) or even industrial (100 percent organic cotton percale). They're made by Aurelie de Champeaux who uses the same time-honoured, home-sewing techniques — passed down by her mother and grandmother — that have informed French dressmaking since the '40s. *D-Bhodhi is at 12 Kung Chong Road.*
